

Ingredients & Allergens

Our pop menu rotates with the seasons and features multiple options made without gluten, dairy, eggs, soy or nuts, but we do process these ingredients in our facility (because some of our pops do contain those things). You can be sure we'll always have pops available made without any of the top-8 allergens. And multiple vegan options. And multiple gluten-friendly options. And multiple options that do contain dairy, eggs, and gluten (ok, you get the idea, we have lots of pops and something for everyone). While we have thorough cleaning protocols and are mindful of no direct ingredient cross contamination, we cannot guarantee that our products are completely allergen free.

Please contact us at hello@petespops.net with questions or to request full ingredient listings.
